

## OUR AFFILIATIONS

One way we keep the cost of litigation under control is by collaborating with efficient, experienced professionals on an as-needed basis. These strategic relationships are seamless to you, and allow us to keep our overhead lower than it is at large, traditional firms. Among those with whom we collaborate is the litigation team at Opus Law Group PLLC. Both Tom James and Don Kunze have over twenty years of experience handling complex, document-intensive litigation. Their paralegals are top-notch professionals, with the ability to organize and manage large cases efficiently. We know this team well and have worked with them previously on complex litigation matters. We work well together without duplication of effort or costs.

We also are set up to bring on short- or long-term contract attorneys or paralegals to assist with document review and other tasks when your case needs additional staffing. We will consult with you first and keep you informed as to our anticipated staffing needs to ensure that case needs are met efficiently and effectively. You will never be surprised by new names on your bills.

**We have access to an amazing pool of talented professionals. Our staff can be tailored to fit your needs.**
